

CALL FOR “WOMEN SCIENCE TEACHERS” AMBASSADORS 2023-2024, TERMS & CONDITIONS

AIM

“Women Science Teachers(WST)” is looking for dynamic, motivated and creative teachers and other educators to support the dissemination of WST, as well as the exchange of practices and knowledge between all STEM education stakeholders.

ABOUT THE PROJECT

WST, science education community for Gender Equality, promotes and supports collaboration among STEM (science, technology, engineering and mathematics) teachers, educational researchers, policy makers and other STEM education experts.

Since 2014, WST has been pioneering the exchange of knowledge and experience in the field of STEM Education through its portal, events, professional development activities and networking activities.

TASKS TO BE CARRIED OUT BY THE WST AMBASSADORS

WST Ambassadors help share WST activities at national level and play an active role in supporting innovation in STEM education in their countries. Their work is essential to expanding and consolidating a community whose core values are sharing good classroom practice in the STEM area and ensuring that students are equipped with the skills they need to succeed as adults.

The tasks of WST Ambassadors will be:

- Task 1: Support the dissemination of WST via social media, webinars, conferences, articles, training, etc.
- Task 2: Support the dissemination of STEM education in general, at national, regional or local level .
- Task 3: Support other teachers(in their country) in their improvement of STEM teaching by exchanging knowledge and good practices .

BENEFITS FOR WST AMBASSADORS

WST Ambassadors are part of an international community supporting STEM education. W S T will offer its active Ambassadors:

- Visibility on the WST portal (including their email addresses).
- A certificate at the end of each calendar year, with an overview of the activities that the WST Ambassador has carried out during the year (provided the Ambassador has been active).
- Membership in the community for science education which supports world-wide collaboration among STEM teachers, education researchers, policymakers, and other educational stakeholders.
- The possibility to use the WST Ambassador logo to add to their social and professional media profiles.
- Recommendation to create projects when possible
- Opportunities to attend WST events: online and face to face
